**INQUIRY INTO IMPACT OF THE WESTERN HARBOUR  
TUNNEL AND BEACHES LINK**

**Name:** Pieter Newtown

**Date Received:** 4 June 2021

---

Dear Sirs/Mesdames

I fully support this enquiry.

Although I have not been following the details, too many questions have been raised about the whole project. The tender process, the impacts on the environment, on residents, on parks such as Yurulbin Point, Dawn Fraser Baths, on Sydney Harbour and its wildlife (given that the tunnel will "rest" on the harbour floor), etc.

The Western Harbour Tunnel, along with the whole WestConnex project, appears to have been rushed through without proper due process or proper due diligence. I am not opposed to the projects per se, however the manner with which they have been bulldozed through the system, without proper compensation for those negatively impacted, reeks of corruption and a "jobs for the boys" type management.

A proper forensic investigation is much needed.

Thanking you

Pieter Newtown
