**INQUIRY INTO PROTECTION OF THE ENVIRONMENT
OPERATIONS AMENDMENT (CLEAN AIR) BILL 2021**

Name: Mr Terry Holdom

Date Received: 9 June 2021

Dear EPA committee

Vales point pollution is draconian and more effort should be focused on renewable energy. This draconian effort to keep an outdated source of energy will not only create more harmful pollution which will be another fury to face from the public but also will show the public that the EPA is a toothless tiger bowing to company pressure. Have some sense and force companies to drag NSW into the 21st century.

Haven't you seen climate change in action? I suggest you get out of your glass castle and look.

Thank you

Terry Holdom
