**INQUIRY INTO IMPACT OF THE WESTERN HARBOUR  
TUNNEL AND BEACHES LINK**

**Name:** Mrs Tanya Maxwell

**Date Received:** 8 June 2021

---

Hello.. I am desperately worried about the environmental impact of this tunnel. We live right on the edge of flat rock, where you're planning to house a huge construction site. We are a few 100 meters away. We have very young babies and VERY concerned about the well documented health implications / air contamination of tunnelling dust. We are also distraught at the idea of more green space being destroyed to create a tunnel link that saves less than 15min off of commutes, does not benefit our community at all, and puts more cars on the road.

Please please please reconsider. Please. Our family, and 1000s more will be impacted with no benefits. Please.
