**INQUIRY INTO IMPACT OF THE WESTERN HARBOUR
TUNNEL AND BEACHES LINK**

Name: Mr Blair Leslie

Date Received: 10 June 2021

i would like to lodge my objection to the proposed beaches link tunnel project for the following reasons.

i have attended several community updates on the project and am yet to be convinced that this is the only possible solution to the the issue of traffic on the beaches.

many of the savings quoted for traffic volumes in mosman don't add up unless there are several undisclosed road closures being made in conjunction with the tunnel project. lack of disclosure on this makes me worry about what other issues are being hidden. the closure of one golf course and destruction of another make no sense when green space is slowly being eroded by further urban over development.

the logical solution in my opinion is a metro line from the hub at chatswood via east roseville, forestville, frenchs forest (for the hospital hub) and through to dee why.
