**INQUIRY INTO IMPACT OF THE WESTERN HARBOUR
TUNNEL AND BEACHES LINK**

Name: Mr Michael Hargreaves

Date Received: 10 June 2021

The Northern Beaches Tunnel should not have a link road. The link road entrance is in a dangerous position opposite Balgowlah Boys High and the increased traffic which Sydney Road does not need will only result in injury or death to students. A concerned engineer designed plans removing the link road. These plans were accepted by the wider community and were presented to government and rejected with no reason given and all government reports since have chosen to ignore that plans existence. The tunnel exhaust off Burnt Creek deviation must be filtered. There are too many schools within the danger area of the pollution fall out.
