No 115**

**INQUIRY INTO IMPACT OF THE WESTERN HARBOUR  
TUNNEL AND BEACHES LINK**

**Name:** Ms Mary Teteris

**Date Received:** 11 June 2021

---

I am absolutely dumbstruck by the total disregard to our natural environment. The tunnel that you want to build that totally decimates the environment. I understand that the EIS has not been taken into account? That you feel you have the right to build a monstrosity that the minority of people want & the major winners in this are big business- the toll roads & the state government, NOT the people and especially our children. Why bother keeping covid out when you're poisoning us with major roads? You have no right to destroy our natural habitat. No right to kill all those trees. No right to build tunnels with unfiltered stacks where the pollution runs through the corridor where THOUSANDS of children go to school every day. I can not even believe you can all sleep at night.
