As a Neutral Bay resident i wish to express my feelings in being strongly against this project.

While I understand that State Government is working towards a greater goal, I feel it is a astounding that exhaust stacks are not being filtered.

To me it even seems NEGLIGENT when taken into account the proximity of many schools in the stack areas.

I also wish to protest the loss of the pedestrian/cycle bridge from near St Leonards Park to Merlin St and the adjoining Miller St underpass.
