Confidential

It is my understanding that you are cancelling the 243 bus that goes down Ourimbah Rd which has already seen obscene cut backs to timetabling. Cutting this line when the next nearest bus stop is a kilometre away and on the other side of military road, is ridiculous. This side of Ourimbah/McPherson street is entire residential + schools so not having a direct link to this area is unreasonable when so many buses drive straight through Cremorne without stopping.
