**INQUIRY INTO IMPACT OF THE WESTERN HARBOUR  
TUNNEL AND BEACHES LINK**

**Name:** Mrs Jennifer Stuart

**Date Received:** 18 June 2021

---

To Whom it may concern. I am against the proposed Beaches Link Tunnel. I am a chartered Chemical Engineer and mother of 2 primary aged kids. I think the environmental damage and loss of natural areas which should be protected is too great. The Manly Dam natural environment is a gem which future generations should be allowed to enjoy in it entirety. Now more people are working from home I don't think the tunnel is necessary and I would rather see the public transport and cycle ways for e bikes improved using existing roads to ease congestion.
