**INQUIRY INTO IMPACT OF THE WESTERN HARBOUR
TUNNEL AND BEACHES LINK**

Name: Name suppressed

Date Received: 17 June 2021

Partially
Confidential

The impact on the local community and the fabric of the Northern Beaches as a whole has not been considered. This over urbanisation of the area is not welcomed by those who live here. The ignorant pursuit of this project does not take into account the environmental, social and economic losses this community will face by building a tunnel for more cars that will reach capacity in less than 10 years! Improve the public transport links to the Beaches! We don't need more cars on already traffic logged streets.
