INQUIRY INTO IMPACT OF THE WESTERN HARBOUR TUNNEL AND BEACHES LINK

Name: Mr Bruce Donald

Date Received: 17 June 2021

I support the Submission by the Committee for North Sydney. The project has an appalling planning process with no business case.. The failure of the planning process to engage in long term analysis of public transport solutions is simply incompetent.. It is incredible that 5 major streams of traffic will now meet on the busiest freeway in Australia. Its impact on the CBD of North Sydney will be appalling, contrary to all the public domain planning by the community to save this drive through CBD. It should not proceed any further..
