**INQUIRY INTO IMPACT OF THE WESTERN HARBOUR
TUNNEL AND BEACHES LINK**

Name: Name suppressed

Date Received: 17 June 2021

Partially
Confidential

Just highlighting that the tunnel is totally unnecessary and will not serve any good purpose as eventually all traffic will come together in one place therefore causing a build up of traffic we should be putting the money towards better public transport ideas

We also need to think about the stacks and the impact on our local families plus loss of our valuable green space
