**INQUIRY INTO IMPACT OF THE WESTERN HARBOUR
TUNNEL AND BEACHES LINK**

Name: Louis Thevenin

Date Received: 12 June 2021

I am given to understand that this project involves the elimination of the Ernest St southbound onramp to the Warringah Expressway.

This would be disastrous for the residents of the North Cremorne, Neutral Bay and Cammeray who rely on this infrastructure to reach the City and beyond.

Its elimination would force all citybound traffic from the area onto Military Road, causing unbearable congestion in Ben Boyd Road etc.

Please reassure the residents of the affected communities that the onramp will be spared.

Sincerely

Louis Thevenin
