

**INQUIRY INTO ACQUISITION OF LAND IN RELATION TO  
MAJOR TRANSPORT PROJECTS**

**Name:** Name suppressed

**Date Received:** 30 June 2021

---

Partially  
Confidential

My land of 7.5 acres has been severely impacted by open space. Although zoned enterprise, there is no interest in purchasing by either developers or investors because of the open space. We have been told the government will purchase all open space, but no-one can tell us when and how it will be valued.

We will be left with two pieces of fragmented land with new title once the government purchases the open space. Our home of 40 years will be demolished as it sits partially in the open space and we will be homeless with unsellable land.

Please help.
