INQUIRY INTO ROAD TOLLING REGIMES

Name: Mrs Sue-Anne HENDERSON

Date Received: 3 July 2021

As people who regularly drive to Sydney from a regional area, we basically avoid tolled roads. The North Connex costs over \$8 and would only save us about 2-3 minutes in travel time. For other tolled roads, we check travel times before leaving, and require at least a 15 minute time saving before we will consider using a tolled road. To use tolled roads to visit our daughter, son in law and grandson, we would spend an additional \$12 to use tolled roads.

Tolls should be used to pay for and build new roads, not to put profits into the pockets of private companies.
