Partially  
Confidential

Hi, I am resident of South West Sydney and need to travel to work daily. I need to pay daily more than \$25 in toll just using one motorway M5. M5 which was built long ago and government introduced new toll on old road now, which is not fair to hard working people. People living in South West Sydney has M5 is the only major road to go to city and other areas to work. But due to toll, it is beyond our capacity to use. Does government has any responsibility towards people living this area? This toll should be scrapped immediately.
