

INQUIRY INTO ROAD TOLLING REGIMES

Name: Name suppressed

Date Received: 4 July 2021

Partially
Confidential

I am working full time for last 9 years close to work in a rented unit at Dulwich hill.

Recently, I bought my first house with a live because of increasing housing prices.

Considering I am a first home buyer I could only afford far from city.

So I choose Austral.

Here is the issue, I work at Tempe so I have to travel daily almost 80

km via M5 and M7.

On top of that, I would have to pay daily toll which makes it really hard for people like us who travel daily to work.

So my suggestion would be to either issue(100\$) annual toll pass so that it doesn't hurt middle class income earners pocket or bring the toll to absolute minimum for frequent long term toll users. Only M5 cash back scheme is not enough.

On one hand, govt is assisting first home buyer to jump into market and on the other hand toll is hurting low-middle class income earners.
