I find it unfair that you are yet again rising the price with tolls, as a travelling worker it cost me so much to travel to and from my job week in week out. Not only that yet you decide to rise the price during a pandemic

It's really inconsiderate yea I can go around avoid tolls but that means consuming more petrol and budgeting Im already trying to make ends meet with what I can afford. This is me but what about all those other families too Please stop rising the prices on our road
