

INQUIRY INTO ROAD TOLLING REGIMES

Name: Name suppressed

Date Received: 4 July 2021

Partially
Confidential

I travel from the Central Coast to Sydney Airport for work which requires me to travel through the Harbour Tunnel south bound incurring a toll which changes depending on the time of day. Previously the toll amount was displayed however this has been removed and motorists are not informed how much they are paying for their trip.

I also travel the Eastern Distributor North bound which includes a toll which is increased 4 times per year. The current cost of weekly tolls for me is approx \$50 that equates to \$2600 per year just in tolls which is constantly increasing.

Considering some days you come to a complete stop in an 80km zone but still have to pay the full toll amount is ridiculous.

I believe the toll amount and the ongoing toll increases need to be reviewed and revised.
