

INQUIRY INTO ROAD TOLLING REGIMES

Name: Name suppressed

Date Received: 4 July 2021

Partially
Confidential

Toll prices increase year after year. Living in Southwest Sydney (Edmondson Park) - I need to use all the toll roads (M4/M7 and M5) to get anywhere for work or even for social connections due to congestion on Hume Hwy (A28) at most times of the day. Socioeconomic demographics here are made up of mostly working class families/immigrants. Not only do we have the most expensive public transport fares because we travel the furthest distance, but we also rack up the most in toll fees for using roads to get us to work on time.
