Partially
Confidential

I travel for work from the east to Liverpool 4 times a week, my mum travels from Liverpool to the Eastern suburbs 1-2 times a week to pick up my kids from school. The extra toll introduced on the M5 East has added a toll 10-12 times per week without any benefit in terms of travel time! (I pay for my mum as she is picking up my kids from school obviously). That is at the moment an extra \$75-\$90 a week. My current toll bill per month roughly \$600 - \$650 ! This is insane! You can get top private health insurance cover for a family of five for the same money! NSW government really sold out the people of Sydney!
