Really disappointed with the government taking my family home and hobby farm for there own benefits. Basically stealing from my investment and my children future.

I did not want you to build your city here. You chose to do so why I have to pay tax on my principal home of residence. This is my blood and sweat wasn't handed down to me by anyone. I have scarified my family time in order to be where I am today. I strongly object the decision to pay tax on my family home and hope my concerns will be heard, I am feeling very depressed as I can't buy anything like what I have now anywhere close by.
