INQUIRY INTO ROAD TOLLING REGIMES

Name: Mrs Tracey Lynch

Date Received: 4 July 2021

I support the cessation of tolls completely

The western suburbs of Sydney are punished simply for our post codes.

It costs for for a person from the western suburbs to travel anywhere within Sydney due to the exponentially high costs of tolls.

To get to and from work is simply unaffordable for most, including my family. At present I am currently paying \$25 per day, 5 days per week, to get to and from work in a timely manner, so I can get to after school care in before closing time. In order to have such a luxury, our family forgoes other essential expenses and experiences.

Also, the reason I work in the location I do, is due to the remuneration discrepancy between inner suburbs and south western suburbs. At Rosebery, Including my annual bonus, I earn exactly double the going rate for the same position in the south west. Therefore I am penalized by having to pay ridiculously high tolls
