Partially  
Confidential

It seems unfair to make landowners pay for infrastructure that they will never use. This is because they are being forced to move from a home that they love. Land is rezoned and the current landowner had no say in the matter. They are merely notified once the decision is made. Most people would prefer that the communities that they have lived in be left alone. They should not have to pay to set up the future communities that they will not be a part of.
