Tolls are against the right of free movement, even the Magna Carta was against tolls that was created in 13th century England. Another problems with tolls if even 1 motor vehicle incident happens it makes using the tolls a more wasteful experience as you have to wait longer and charged more as from my understanding the tolls charge vehicles based on the time they spend on the road. In conclusion replace tolls with possibly higher taxes as a alternative to fund those roads or use pre existing funds and use those on the roads instead of some politicians public paid holiday.
