**INQUIRY INTO IMPACT OF THE WESTERN HARBOUR
TUNNEL AND BEACHES LINK**

Name: Mr Drew Truslove

Date Received: 18 June 2021

To whom it may concern, I am writing to voice my objection to this development as it is currently set out. This would cause significant damage to one of the most beautiful parts of the lower North Shore of Sydney, which is steeped in history and is a unique environmental ecosystem. Flat Rock Gully was once called Gulawa Injun Bulgan or Cimb Downhill by the local indigenous Cammeraygal people, as a reference to the fact that this area was a major thoroughfare for people living in the area now known as Willoughby to be able to come down and hunt, fish play in the streams and forage in what is now known as Tunks Park and flat rock gully. This development with further encroach on this beautiful area, which has been important to be all locals for more than 6000 years, and would most likely overstep all bounds of preservation of his precious area.
