INQUIRY INTO REVIEW OF THE HERITAGE ACT 1977

Name: Mrs Julie Daly

Date Received: 4 July 2021

As a historian and archivist with an interest in Australian, local and social history alongside built and architectural heritage, I have an expectation of strong and robust heritage legislation to preserve and support our history. This expectation extends to a Heritage Act which will enshrine and preserve our heritage for future generations, not a Heritage Act which enables erosion of our historical record.
