INQUIRY INTO REVIEW OF THE HERITAGE ACT 1977

Name: Mrs Philippa Pritchett

Date Received: 4 July 2021

I believe that the current Heritage Act is suitable in maintaining heritage properties.

I do not support the dilution of the application of that Act. In fact i would prefer that more heritage properties were preserved.

Historic buildings and streetscapes are valuable assets in our communities. Once these are destroyed and disappear, they are forever gone. Too often their value to their communities has been ignored and disregarded, in favour of economics and the wishes of developers.
