I think this proposal is so unfair to ordinary people that have worked hard all their life, paid taxes, rates and done the right thing looking toward retirement.

Now we are expected to contribute to infrastructure that we never had, or will have privilege of using.

This is our family home and the potential sale of it (if your proposal goes ahead) will be greatly impacted on.

Developers & the future land owners should pay for infrastructure as they are the winners, not me & my family.
