

INQUIRY INTO ROAD TOLLING REGIMES

Name: Name suppressed

Date Received: 4 July 2021

Partially
Confidential

Thank you for inviting submission.

I would like tolling practices to reverse.

That is, to remove or reduce tolls on motorways since this is where motor traffic belongs.

At the same time, non-motorway road use should be tolled since this is where people belong.

Furthermore charges should be made based on congestion and excess use.

This way roads can be kept clearer for public transport, emergency services and active transport.

I would also like the General Urban Speed Limit to be reduced from 50 km/h to 30 km/h in order to improve safety and air quality. This should be done even where tolls are applied.
