Confidential

I would like to submit my objection to the new infrastructure tax bill the LNP Government is trying to introduce. This will be a discriminatory tax on most people's only asset their HOMES. I am fed up with the Government turning to its citizens (easy targets) to invent ways to tax people more so as to increase expenditure for them, due to shockingly incompetent use of public money & wastage, that no one seems to ever be held accountable for!...enough is enough. Every other week, we read in the paper, about misappropriation on public money (Camelia site), port parrelling currently under investigation and now bureaucrats being paid way over their awards for the positions they hold. It has got to STOP!...people are under enough pressure to keep their homes, families & livelihoods together, after 18 months of hell with COVID. The LNP need to STOP wasting tax payer funds. This is disgraceful, and the Bill should be thrown out in the bin, where it belongs. Leave people's homes alone, home owners/land owners have no control over when & where the government decides to put in infrastructure & to date no one has paid this tax out of their only asset, their home, for any infrastructure, like the Sydney metro. Everyone's taxes are pooled together to pay for infrastructure needed around the State, which is fair, because EVERYONE benefits....just SHOCKING, when will it stop!!...
