INQUIRY INTO ROAD TOLLING REGIMES

Name: Mr Aaron Giddings

Date Received: 4 July 2021

Tolls are a joke. Roads should NOT be sold to private companies. They should NOT be as high as they are. This is after tax income. On top of that, you build a road like the M7 for example TWO lanes wide. Before the toll is due to come off, you will widen it with our money and allow Multinational companies to extend the toll period.

I remember when a premier Mike Baird sold the Poles and Wires to fund the infrastructure of tomorrow. So we sold the Poles, we built the road, we sold the road, toll prices now above 8 dollars on many sydney roads and then to top it all off, if you spend XXXXX amount each year we will give you free rego. Thats me again....the tax payer.

Is it fair to be paying 4 times? Is Parramatta or Victoria road really an option? For those who can't afford to buy in paddington, waterloo or surry hills get penalised for buying in places like blacktown, penrith or toongabie. I bet you if i put a toll on O'Rierdon street or Botany road, there would be one big uproar.

Live in sydney CBD, pay no tolls. Live out west and we will hit you where it hurts every day of the week, every week of the year. Why does the government let this happen?
