Partially  
Confidential

Living in Sydney west region we are paying lots of tolls to go anywhere for example to go to blacktown without tolls takes 2 hours with traffic conditios so obviously we have to use tolls and per day it's \$14 which is more than half of many people salary what's the point of them working if all your money goes on tolls and that's the reason people depen on centre link instead of looking for work , I would appreciate to think about these toll charges and help the low to medium range income families lot
