INQUIRY INTO ROAD TOLLING REGIMES

Name: Mr Ben Pailas

Date Received: 5 July 2021

Why should anyone even have to make submissions on this topic? Sydney is the highest tolled city in the world. It's out of control. Transurban should be banned from owning any more roads in this country. My wife spends roughly \$5000pa on tolls. My company pays for mine I expect they are around \$7000pa.

How are we supposed to afford a house? How is anyone able to save 80K plus to get into the bottom end of the market while paying thousands a year in Tolls?

Why did the NSW state government sell all our assets to build toll roads only to then sell them at a loss to Transurban? How much revenue does the state of NSW collect in tolls vs Transurban?
