

INQUIRY INTO ROAD TOLLING REGIMES

Name: Name suppressed

Date Received: 5 July 2021

Partially
Confidential

It is ridiculous that we tax payers pay for a toll road only for it to be upgraded, cost us more money and then tolled again. A previously tolled road should not be tolled for a higher price. This has made my commute cost a ridiculous amount of money every week. It should not cost 40\$ plus to drive into the city and back everyday. Tolls being sold to private companies is a corrupt act and must be stopped. If we pay registration, our tolls should be free or at least affordable. It has also increased the traffic around suburban streets. We have heavy trucks and noise now detouring into quiet streets which have caused damage to electrical wires as the trucks are too high and not supposed to drive in our streets. There are more potholes and damage in my area due to the increase number of trucks using normal small streets. This is also more dangerous.
