INQUIRY INTO FLOODPLAIN HARVESTING

Name: Mr Callum O'Donnell

Date Received: 12 July 2021

To whom it may concern.

I am writing to you as a 21 year old living in WA. I am appalled about how imbecilic you people are with your water. How in any reality does one individual foreign organisation; Cubbie for example have more waters rights then the entirety of the water the Perth metro region has in all of our damns. Does that one company employee over 2 million people? Contribute as much tax as 2 million people? No. Sure you'll argue back that aye, we have a lot more water then Perth. I don't care that's not right, I'm sure your environment could use it, because let's be real, when was the last time you stumbled upon a platypus outside of a protected area
