## **INQUIRY INTO FLOODPLAIN HARVESTING**

**Name:** Mr Kyle Booth

**Date Received:** 13 July 2021

---

Proud farmers with family owned business going back generations dried up and laid to waste, indigenous people living off their land, their connect spiritual birthright, only to have there life expectancy cut due to there natural aquatic River dietaries & water source being held like it's some sick stock-market game. I strongly disprove of the governments handling when it comes to floodplain harvesting and believe they should be held accountable.
