

INQUIRY INTO FLOODPLAIN HARVESTING

Name: Name suppressed

Date Received: 13 July 2021

Partially
Confidential

To the Committee members,

I am sending a submission into the Floodplain harvesting that is taking place in the Murray Darling river as a concerned citizen of this country. The destruction being cause by large cotton farmers in the higher regions denying communities, towns and even other industries of the commodity of water can't be what is best for all Australians. It is currently managed to support the few at the expense of the many.

It is bad for the environment and the economy and can in good concious be supported by the government and needs to be reglated and policed.

Thank you for your time and consideration.
