

INQUIRY INTO FLOODPLAIN HARVESTING

Name: Name suppressed

Date Received: 13 July 2021

Partially
Confidential

After watching friendlyjordies documentary on this has made me horrified at the fact as a veteran I served this country only to have our water sold to foreign countries. After having my back destroyed I have been neglected by DVA. All I wanted was to serve my country and retire on a small farm. After all of this what did I serve for? This country has been sold out and I am discussed in the actions taken by this government.
