**INQUIRY INTO ACQUISITION OF LAND IN RELATION TO
MAJOR TRANSPORT PROJECTS**

Name: Name suppressed

Date Received: 2 July 2021

Partially
Confidential

I have had my substrata acquired workout compensation despite the space being on sold . I have also received no reassurance that I will be compensated for any damage done to the agricultural drains under mine and neighbors property. This is particularly concerning as my home is on land officially declared flood prone. Property inspection done prior to drilling did not include these drains. My house could be compromised by damage to neighbors drains that they are not aware of.
