INQUIRY INTO FLOODPLAIN HARVESTING

Name: Mr Nathan Orenstein

Date Received: 16 July 2021

The ongoing use of flood plain harvesting is not only illegal, it is entirely immoral. To pretend to be custodians of the health of the state and leave communities behind for the sake of some money is deplorable and quite frankly corrupt.

Listen to the communities affected. Listen to First Nation's People, listen to farmers who are committing suicide, listen to health officials in the lower basin who are struggling. Stand on the side of compassion and people, not corruption and profit.
