## **INQUIRY INTO FLOODPLAIN HARVESTING**

**Name:** Miss Amanda Barnes

**Date Received:** 22 July 2021

---

I oppose the Martins Creek Quarry Expansion.

Some of my reasons are the land, flora and fauna will be gone forever. No one has ever repaired an area used as a quarry and restored the wildlife, insects, plant-life and landscape.

Also this will be a huge disturbance to the humans and non-humans living in the area: the increased noise - both in decibels and in length of time. The production of excessive dirt in the air and dust, affecting the ability to breathe of everyone - human and non-human.

Lastly this will affect the real estate values - they will lower; historic buildings in the area; the loss of a lovely amenity in what should remain a rural village.

Thankyou.

Amanda Barnes
