

INQUIRY INTO FLOODPLAIN HARVESTING

Name: Name suppressed

Date Received: 13 August 2021

Partially
Confidential

Thank you for the opportunity to have my say.

Floodplain harvesting takes much needed water from the environment and towns downstream, especially in the Far West.

Although we not in drought now we know there's more to come.

We need to look at the realities of climate change and base extraction from the Murray Darling appropriately and for future droughts. We need water and food security. We need more water for the rivers and surrounding land, not less.
