

**INQUIRY INTO COMMENCEMENT OF THE FISHERIES
MANAGEMENT AMENDMENT ACT 2009**

Name: Name suppressed
Date Received: 18 December 2021

Partially
Confidential

Cultural fishing should be considered only if Aboriginal people use original fishing tools and methods from before European settlement. Consider that this is an unfair and divisive practice which will be abused by all those with the smallest percentage of Aboriginal heritage. Majority of anglers want fairness and equality and there is nothing fair about this practice. It is racist.
