

**INQUIRY INTO COMMENCEMENT OF THE FISHERIES
MANAGEMENT AMENDMENT ACT 2009**

Name: Name suppressed
Date Received: 16 December 2021

Partially
Confidential

This should have been in place from 2009. Yet the Fisheries Management Act continues to be used as tool to chip away at Aboriginal culture and deny Aboriginal people the right to fish on their own country. It's an absolute disgrace that after 12 years this hasn't been implemented and Fisheries and the Government should hang their head in shame. Enough is enough. Get it done!
