

**INQUIRY INTO GREATER SYDNEY PARKLANDS TRUST
BILL 2021**

Name: Name suppressed
Date Received: 13 December 2021

Partially
Confidential

I cannot for the life of me think why we need less open space rather than more. This lazy government want to bring in to this country even more immigrants, another ponzi scheme. They want more concrete because they don't know of any other way to build a steady economy except for reliance on construction.

Do these parliamentarians ever look farther than their back fence. Trees are coming down, green swallowed up, all this at a time when the majority (yes majority) are worried about climate change and the legacy we'll be leaving our grandchildren.

We will never be able to get back areas that have been decimated (I live in one). In my area (Epping) houses are coming down and new McMansions being build, mostly Asian migrants. There's not a tree planted or even a shrub - it is their culture, coming from high rise congestion. This is not racist, just facts. Come and have a look for yourselves.

Wake Up!
