

**INQUIRY INTO GREATER SYDNEY PARKLANDS TRUST
BILL 2021**

Name: Name suppressed
Date Received: 14 December 2021

Partially
Confidential

On behalf of all Australians who are concerned about not just now, but the future we are leaving for our children, please allow community knowledge to be the backbone of the management of our parklands, rather than the potential commercialization of these public areas. We are all so jaded and disillusioned by the on-going corruption allegations that are a result of decisions that are influenced by the one goal - profit!

We all want our children's children to enjoy what we have now. Please show some foresight and imagine a future where there is no loss of habitat and species....perhaps there will be an increase in green spaces and species. It is not too late. Please abandon the Greater Sydney Parklands Trust Bill and consider the Federated Community Model.

Thank you for considering my opinion.
