I refer to the proposed Trust to Administer several parks, including Callum Park.

Our Government and indeed our Parliamentary system is based on the independence of the judiciary and parole board where decisions are not influenced by parliament or interest groups. We have seen how advocates representing the rich have influenced politicians (Obeid etc) and it takes years to prove and the detrimental affect cannot be undone.

I raise this situation because I do not support the reach that a large trust would have over so much of our precious heritage and parkland sites. In fact I see them as unique assets, that warrant a local administration (at least a majority local) comprising trusted individuals, who are accountable for decisions (which are transparent).

Please note this objection to the proposed to Upper House Inquiry into Greater Sydney Parklands Trust Bill.
