Citizens of the inner west, particularly Rozelle Lillfield and Balmain have been fighting for many years - at least over 15 years to preserve Callan Park. I am not opposed to development but please keep developers away from Callan Park.

It is the only large piece of lovely foreshore land left. Please preserve it for the citizens. Give the power to local council because they will consult with citizens to ensure the citizens get what they would like for the community.

The citizens of Rozelle have been through a lot of development with the Sydney Metro and Western Harbour Tunnel and generally West Connex and all the associated works.

Don't you think we have been through enough. You will destroy Rozelle. Please leave Rozelle alone. After all these years why should we have to continue to fight for a piece of land. It doesn't really belong to you. It belongs to the people. Please leave it to the people to decide what is best.

It's just not right that people have to fight for years and years to preserve land for the people.

Please again, leave it to the local council to decide with the local citizens on the future of Callan Park.
