INQUIRY INTO PUPPY FARMING IN NEW SOUTH WALES

Name: Ms Kerry Fitzgerald

Date Received: 4 February 2022

I follow many dog rescue organisations on social media. There are already plenty of dogs available for people to welcome into their lives and homes. Why is it that life is so worthless that we have the situation where dogs that were once cute little pups will be destroyed because they are no longer wanted?

Then there are the parents of these pups. Having litters every season. Living in disgusting conditions. No love. Dogs are sentient beings to allow this kind of treatment to continue is criminal.

Lets start to take care of and protect the most vulnerable, be they human or another animal, then we will be closer to a kinder society.
